

Managing Information Risks

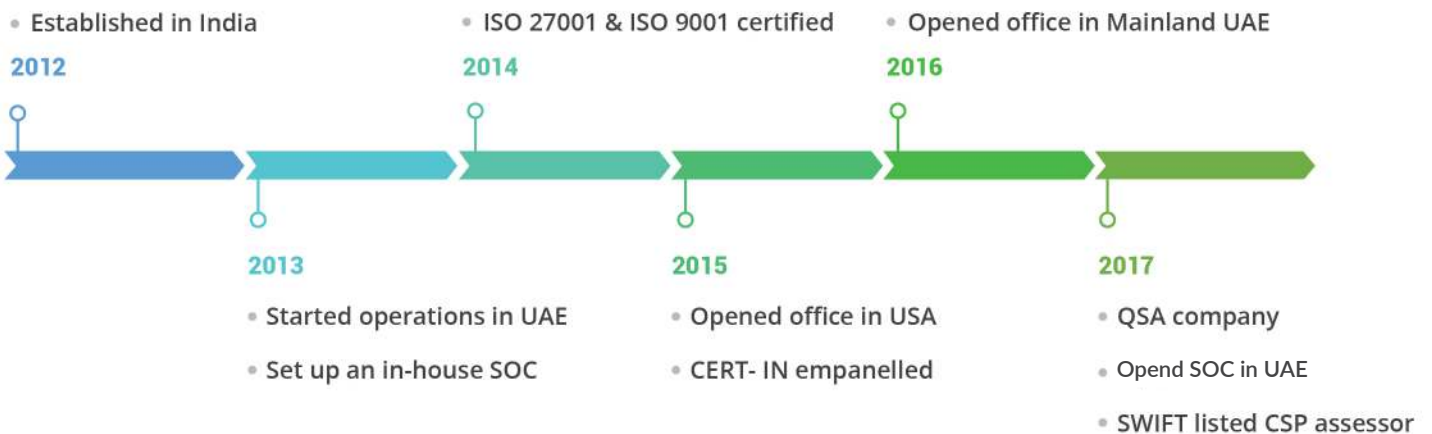

ValueMentor
Maximizing Cyber Security

Mentoring you to a secure environment

Today, cyber security threats are growing exponentially and becoming increasingly complex which is making it difficult for organizations to safeguard their data and networks. ValueMentor is a leading cyber security service provider and a strategic partner to clients across 22 countries helping them in tackling this growing menace. ValueMentor provides comprehensive and holistic cyber security services to help businesses assess, build and manage their cyber security capabilities and enable them to respond to incidents and crisis.

With a state-of-the-art security lab and a 24/7 in-house cyber security operations center, we are equipped to provide the right solution in the shortest time. Our delivery process is reinforced with our industry - leading intelligence and research in the field of cyber security. Having gained recognition from global authorities, the craftsmanship and astuteness of our security professionals help us think a step ahead of the intruders. Our clients trust us with their security wellness, knowing they are in safe hands, while they focus their time and efforts to the growth of their business.

OUR SERVICES

At ValueMentor, we have a diverse talent pool, enriched by broad perspective, deep experience and innovative strategies. As a young organization, our methodologies and processes are developed from ground zero, offering a new and fresh approach to security problem detection and resolution.

ValueMentor is a PCI QSA company listed by PCI standards council offering PCI QSA services. We are an ISO 27001 and ISO 9001 certified organization. We are a SWIFT listed cyber security provider and SWIFT customer security programme assessor. ValueMentor is also approved by the CERT-IN (Computer Emergency Response Team - Government of India) to perform a security assessment of the government critical information infrastructure.

Our service portfolio highlights our right blend of skills and technology. Our services come with customized SLA response time-based on client requirements, detailed and client- friendly reports and our advanced monitoring and reporting system.
